Abstract

In this seminar, the speaker will share his experience in applying the story-telling technique to build trust among his clients (helping them to get the required support and budget from their management teams), colleagues (motivating them to acquire new skills) and other important stakeholders in the commercial world. By supplementing with real-life examples, Daryl will highlight the importance and a few tips of getting our messages across the table and make the necessary impact.

Biography

Daryl is a Senior Manager at PwC's Cybersecurity practice and a member of PwC's DarkLab. Daryl has over 8 years of experience in providing cybersecurity services to clients across different industries in China, Japan, Korea, Australia and the US. He has worked with world leading technology firms to design innovative and disruptive security solutions to protect millions of users around the world. His key areas of expertise include cloud security strategy, penetration testing and red teaming, threat modeling and secure architecture review.
